How do I interpret my results?

For each of the *Seven Transformational Strategies*, we've shown how your responses for your district compare to "best practice." Our definition of "best practice" is based on nearly 10 years of work with large urban districts, as well as deep study of the research into what makes high-performing school systems succeed.

You can read more about our vision for urban school system transformation in [One Vision, Seven Strategies](#) or in the [School System 20/20](#) section of our website.

These results are not an evaluation of your district—they are the beginning of a strategic conversation. We hope they spark crucial discussions and point to where more research and data may be needed. You can see a detailed report of your answers below.

A note about "Don't Know": "Don't Know" answers may lower your overall score in a particular section. If you marked "Don't Know" for every statement in a section, that bar will not appear at all. Check your detailed report below for your "Don't Know" count.

What's Next?

- **Join the conversation:** The results of Resource Check-Parents can be used to foster conversation with district leadership and inform the districts' LCAP report.
- **Learn what your peers think:** This tool can be used to survey a large group of parents in your district. Each person's answers are kept private, while the group result is visible to all. [Learn more about setting up a group >>](#)

Some guiding questions for a group conversation:

- Which areas do most respondents feel is a strength for the district? (These are areas where the overall score is relatively high.)
 - Which areas do most respondents feel is a challenge for the district? (These are areas where the overall score is relatively low.)
 - Which areas have the most agreement?
 - Which areas have the most disagreement?
 - Are there areas where most respondents answered "don't know?"
 - **Go deeper:** Though not tailored to California, you can assess your district more specifically with Resource Check in the areas of [Teaching](#), [School Design](#), [Funding](#), and [Turnaround](#).
 - **Understand the big picture:** Learn more about our vision for transforming school systems through:
 - [The School System 20/20 infographic](#)
 - [The One Vision, Seven Strategies paper](#)
 - [The School System 20/20 site](#) which is filled with publications, case studies, videos, and step-by-step worksheets to help districts better understand how they currently organize people, time, and money, and to learn best practices for using resources to meet students' needs.
